

# Table of a Number

Given a number n as input, we need to print its table.

Program to print multiplication table of a number

```
6 * 1 = 6
6 * 2 = 12
6 * 3 = 18
6 * 4 = 24
6 * 5 = 30
6 * 6 = 36
6 * 7 = 42
6 * 8 = 48
6 * 9 = 54
6 * 10 = 60
```

OG

## Examples :

Input : 5

Output : 5 \* 1 = 5  
5 \* 2 = 10  
5 \* 3 = 15  
5 \* 4 = 20  
5 \* 5 = 25  
5 \* 6 = 30  
5 \* 7 = 35  
5 \* 8 = 40  
5 \* 9 = 45  
5 \* 10 = 50

```
#include<iostream>
using namespace std;

int main()
{
    int n, m;
    cin >> n >> m;
    for(int i = 1; i <= m; i++)
    {
        cout << n*i << '\n';
    }
}
```

```
    return 0;  
}
```

**INPUT :**

```
5 2
```

**OUTPUT :**

```
5  
10
```

**Mark as Read**
